THE ADMINISTRATION OF HOSTOS

The insolence and arrogance of this administration seems to have no limit. Over a week ago the Student Body here at Hostos, presented to the Administration a petition objecting to the administration's refusal to re-appoint Dr. Ramon Jimenez. This concurrent event has the solidarity of many workers and specifically the nucleus of the Puerto Rican Socialist Party.

Signatures were collected, the Administration was informed of the decision of the Student Body and their reply was one of Silence. They (The Administration) have refused to recognize the students protocol and pretend to ignore with arrogance the positions of the Students. For awhile now, this administration has appeared important in the leadership of the struggle to Save Hostos and the other colleges involved. But in fact, this administration has utilized repressive methods among Students and Workers who struggle. Examples of this attitude are the firing of Professors (Jimenez, Taylor, Aponte, Rivera, Feeley) and the threats received by Students who attend the activities of the Community Coalition on the part of some Professors and Administrators.

The case of Brother Ramon Jimenez has culminated the cup, involved is an Administration who is not only inefficient and irresponsible but also lazy and Authoritarian! We cannot accept any more abuses! Lets gain more respect as Students and Workers of the Third World.

HOSTOS WILL NOT DISAPPEAR

The He has made its decision publically. For a long time the board has decided to merge our College. The papers made this public today. The situation is clear, they have linked with the party of the rich who control the banks, of their class, and intend to make the Students and Workers pay for their crisis. We are organizing, with our, with the poor, the workers, the students, with the exploited, with our communities. This is a battle in the class struggle, we will win with our labors and sacrifices.
